

Epicurean Paradox ...debunked?

BACKGROUND

Above is a partial flowchart of the Epicurean Paradox that shows it using YES and NO options.

DISCUSSION

Just as you see in the flowchart above, can you have YES without NO? No, you cannot, as you must have both.

Hence, you can't (by definition) have Heaven without Hell. Good without Bad. Up without Down.

And YES without NO.

Moreover, what would the Purpose of Life be if there was no pain or suffering or Evil to overcome?

Hence, the Yes and No options contradict the Epicurean Paradox itself. Thus, the Bible was written by God, and right, and not by Man as this debunked Epicurean Paradox was.
